DRAGON

Refined Porcelain Ware

DRAGON

Refined Porcelain Ware

FIVE ADVANTAGES

LEAD-FREE

Dragon porcelain wares are manufactured using high alumunium formula and the glaze does not contain such heavy metals as lead and cadmium as well ass other physically harmful elements. Products conform to FDA' sanitary standards for household porcelain ware.

LOW WATER ABSORPTION

Not vulnerable to absorb the dirt and odor from the water, easy to wash and no retention of tea scale and stains, bacteria not developed.

WEARABLE

Through 1360°C clinkering, high density, rigidity up to 8400Mpa, withstanding knife sctrach; the bottom finely and elegantly ground, no damage to table top.

HIGH WHITENESS

Dragon porcelain ware is one of the international top-class high-whiteness porcelains, with the superior quality with whiteness 80°.

WITHSTANDING HIGH TEMPERATURE AND FREEZING

Due to 1360°C firing in the kiln, products could be placed in the baking oven, microwave oven, sharp freezer and dishwashing; withstanding high-temperature disinfection, no discoloring and corrosion resistant.

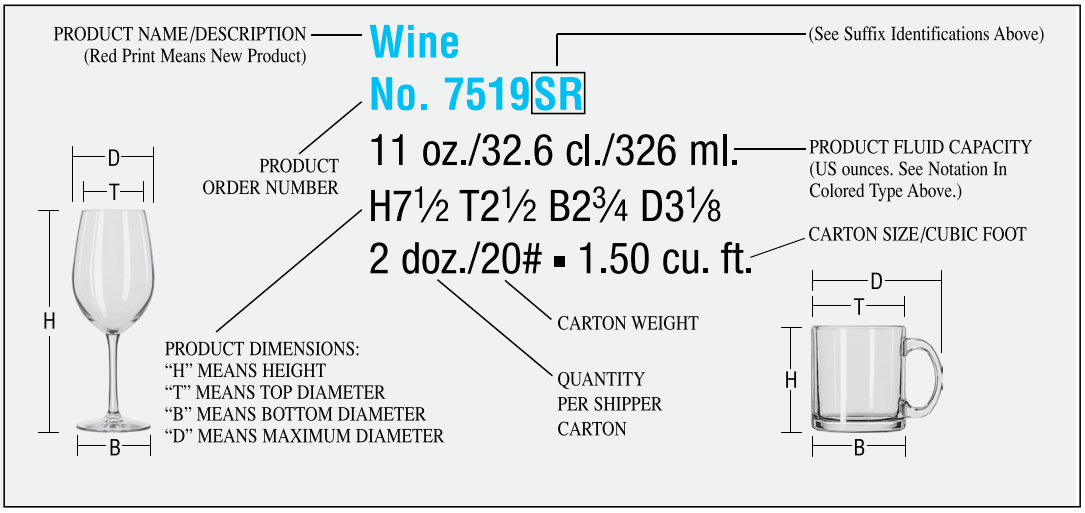
CODING



LIBBEY®

+DuraTuff®

Libbey's exclusive DuraTuff® treatment is a special thermal after-process for "pressed" tumblers and stemware that produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff® name embossed on all Libbey DuraTuff® products.

LIBBEY®

★HEAT TREATED

Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on "blown" glassware is performed only on the upper portion of the glass where most abuse occurs. Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock and is recommended for fast service cycle operations.

LIBBEY®

▲FINEDGE®

Libbey's Finedge® glassware features a minimum bead and is available on a variety of tumblers and stemware.
This finely rimmed glassware brings subtle beauty to any establishment.

LIBBEY®

SheerRim® D.T.E.

SheerRim/D.T.E.®
Libbey's SheerRim/D.T.E.® (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life. SheerRim/D.T.E.® Tumblers and Stemware are guaranteed against chippage of the rim.

LIBBEY®

fizzazz™

Libbey's fizzazz™ is an after-process which applies a laser etch to the inside bottom of glassware to accelerate the release of CO2 of any carbonated beverage, particularly beer and sparkling wine. Choose from Libbey's selection of fizzazz items, or choose a glass and create a custom logo to highlight your brand. Use Libbey's fizzazz to increase effervescence, release aromas and flavors, promote head retention, and enhance presentation by adding "theatre" to the drink.
